### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chad Anderson on 5/20/03.

The application has been amended as follows:

In claim 7, after "of each product", - - , wherein  $m \geq 2$  and is a natural number- - was inserted.

In claim 8, "and is a natural number" was deleted.

In claim 21:

At line 9, after "and reflecting the at least two", "least" was deleted.

At line 10, after "upon a first set of at least two consecutive", - - rolling - - was inserted.

At line 13, after "at least two laser", "beam" was deleted and - - beams- - was inserted.

At line 14, "articles" was deleted and - - products- - was inserted.

At line 16, after "two consecutive", - - rolling- - was inserted.

At line 17, after "two consecutive", - - rolling- - was inserted.

### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: The cited prior art does not disclose or reasonably suggests changing the permeability of tubular wrappers of the tobacco industry wherein the method includes an oscillating step of

swiveling a mirror from a first position to a second position to move at least two laser beam synchronously in the conveying direction of the first set of at least two rolling articles and swiveling a mirror opposite to the conveying direction back to the first position to reflect the at least two laser beams upon another set of at least two consecutive products following the first set of at least two consecutive products. The closest prior art (US 4,720,619) rotates the mirrors in the direction of the conveying products without moving the swiveling mirror back to its first position via a direction opposite the conveying direction of the wrappers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
